AGREEMENT ON GLOBAL PEACE, SECURITY, AND HUMAN DEVELOPMENT

Preamble

The States Parties to this Agreement,

Recalling the purposes and principles of the United Nations,

Recognizing the ongoing impact of armed conflicts and global instability,

Acknowledging that approximately **645 million people faced hunger in 2025**, and the urgent need for global development,

Determined to eliminate war and promote sustainable development,

Have agreed as follows:

Article 1: Universal Ceasefire and Non-Aggression

All States Parties shall cease armed conflict and refrain from aggression.

Article 2: Respect for International Borders

States Parties shall respect existing international borders and commit to resolving any outstanding disputes exclusively through peaceful and diplomatic means.

Article 3: Global Border Monitoring System

A global monitoring system shall be established under the United Nations.

Article 4: Legal Commitment

This Agreement shall be binding on all participating States.

Article 5: Enforcement

Violations shall be addressed through appropriate measures in accordance with the United Nations Charter and applicable international law.

Article 6: United Nations On-Demand Global Force (Weapons Only)

States shall make up to 25% of their weapons systems and defensive equipment available on demand to a UN-managed international force. This contribution applies only to equipment, not personnel. Activation occurs solely for global emergencies, peacekeeping, or rapid-response operations as authorized by Member States.

Article 7: Reduction and Reallocation of Military Expenditure

1. All States Parties shall commit to reducing their annual military expenditure by **50% from an agreed baseline**, subject to a phased implementation schedule.
2. The proposed allocation of the original military expenditure shall be as follows:
    - **25%** retained for national defense.
    - The **remaining 25%** redirected toward humanitarian assistance, poverty reduction, hunger eradication, healthcare, education, infrastructure, and sustainable development.
3. The contribution of **up to 25% of designated weapons systems and defensive equipment** for United Nations-managed operations shall be governed separately under **Article 6** and shall **not constitute an additional financial expenditure allocation under this Article**.
4. States Parties shall establish transparent reporting and monitoring mechanisms to verify military expenditure reductions and the allocation of released resources.
5. Implementation shall take place progressively, taking into consideration national security requirements and the agreed international framework.

Article 8: Continuous Enforcement

The United Nations shall facilitate monitoring, coordination, and appropriate collective responses to violations of this Agreement, in accordance with the United Nations Charter and applicable international law.

Article 9: Humanitarian Protection

States shall protect civilians and support hunger eradication through the World Food Programme.

Article 10: Phased Adoption and Global Expansion

1. This Agreement shall be open to all States.
2. Implementation shall begin with a **Coalition of Willing States**. Additional States may join at any time.
3. Participation levels:
    - Full Members
    - Partial Participants
    - Observers
4. Each participation level shall be governed by clearly defined rights, responsibilities, and commitments agreed upon by participating States.
5. The United Nations shall facilitate expansion.

Article 11: Global Participation

This Agreement aims for universal participation through progressive adoption.

Article 12: Cooperation and Peacebuilding

States shall resolve disputes peacefully and cooperate globally.

Article 13: Entry into Force

This Agreement shall enter into force after the deposit of instruments of ratification, acceptance, approval, or accession by an agreed minimum number of States Parties. The minimum number shall be determined during the adoption and negotiation of this Agreement.

Article 14: Amendments

Any State Party may propose amendments to this Agreement. Amendments shall be considered and adopted in accordance with procedures agreed upon by the States Parties.

Article 15: Depositary

The Secretary-General of the United Nations shall serve as Depositary, subject to acceptance of that role and in accordance with applicable international procedures.

Phase 2 – Developed World - Solar-Powered Global Movable City Model

- Around **645 million people faced hunger in 2025**. Phase 2 proposes an integrated development model addressing food, housing, employment, education, healthcare, clean water, clean energy, transportation, and essential services
- Develop **local and regional manufacturing facilities** to produce solar-powered modular homes and essential infrastructure for **Movable Cities**, integrating housing, jobs, education, healthcare, food production, clean energy, transportation, and community services.
- Develop an **employment and workforce-training system** linked directly to construction, manufacturing, agriculture, services, and city operations.
- Establish sustainable **food-production and food-security systems**.
- Integrate clean transportation, logistics, digital connectivity, water, sanitation, recycling, and shared infrastructure.
- Explore a **50% revenue-generating / 50% development-support model**, subject to financial feasibility, where commercial housing and services help generate sustainable revenue to support accommodation and development needs for the target population.
